Current Status: SR Open
Project Information

Date - Time: Monday, October 27, 2020 2:31:38 PM

Project Number	Project Name	Service Provider Name
20CSOP - 2020 - _____		

Estimated Energy Savings and Incentive Payment

The table below has each energy efficiency measure installed at each site in the project using verified savings.

Site Name	ESIID	Measure	Pre kW	Pre kWh	Post kW	Post kWh	Peak kW Savings	Annual kWh Savings	Estimated Incentive Amount
	Project Totals	All							

Incentive Total/reductions, if Applicable

Pre kW	Pre kWh	Post kW	Post kWh	Peak kW Savings	Energy Savings	Estimated Incentive Amount

Incentive Calculations are based upon the following:

- [1] Peak demand savings are defined in the Texas Technical Resource Manual.
- [2] Projects may only be paid up to 50% of the total capital expense of the project.

Supporting Data/Calculation Requirements

Supporting data collected or calculations used to complete the approved M&V Plan (IN.3) must be submitted with this report. Use this checklist to indicate the additional information being submitted to support the verified savings above. (Check all that apply)
