## Oncor 2021 Commercial Load Management (CLM) Program Project Submittal Process

The 2021 CLM Program will open for **Project Submittal on April 30, 2021 at 10 a.m. CT** (Central Time). All projects will be waitlisted in the order received. Service Providers that plan to participate in the CLM Program should enter their Project(s) in EEPM before April 30<sup>th</sup> and have it ready for submittal.

## <u>Helpful Tips</u>

- 1. Login to the Service Provider EEPM portal (eepm.oncor.com) 15 minutes before EEPM opens for Project Submittal. If you login earlier, your EEPM session might time out due to inactivity.
- 2. Click the *My Projects* button, click on your *CLM Project,* then click the *Review & Submit* button.
- 3. EEPM allows multiple users to be logged in to EEPM using the same User ID and Password. This may improve your waitlist number, especially if you experience computer, browser, or network issues at the time of submittal, or have multiple projects to submit.
- 4. Do not open the same Project in multiple browser windows on an individual computer. Only use one browser window on each computer to submit a project.
- 5. Do not click on the Refresh or F5 button. If you refresh your screen, you will be redirected to the Edit Project screen and you will then have to navigate to the Review & Submit screen to submit your project.

## Project Submittal Steps

(Note: The dates shown in the example EEPM screens below are for illustration purposes only, and are not representative of the 2021 CLM Program Application and Project Submittal dates)

1. Login to EEPM (eepm.oncor.com)

6. When the countdown clock gets to 00:00:00 (which corresponds with April 30, 2021, 10 a.m. CT), a Submit button will automatically appear in the lower right hand corner of your screen. You do not need to refresh your screen to get the Submit button. If you refresh, you will be redirected to the Edit Project screen and will lose precious time navigating back to the Review & Submit screen.
